

STUDENT GUIDE

Welcome to *Sophia Pathways™*!

Thanks for choosing *Sophia* as the next step in your educational journey.

You can start your *Sophia Pathways™* online college course any time and learn on your own schedule. There are no classes to attend or weekly assignments to complete, and each course must be completed in 60 days or less.

HOW IT WORKS

To earn a Sophia transcript you must:

- Complete each Challenge and Milestone by getting at least half of the points in each assessment
- Achieve a total average score of 70% or better across all Challenges and Milestones
- Pass your Final Milestone with a score of 50% or higher.
- Submit your final score and we will take care of sending your official transcript to your school.

WHAT IS A CHALLENGE?

Sophia courses use a learning model that engages you in real world scenarios. Challenges are like quizzes and are composed of multiple questions. If you need help answering a question, we provide tutorials so you can understand the key concepts behind each problem. All tutorials for each unit are grouped together for easy reference.

You get multiple attempts to solve Challenge problems, and you can leave and

return whenever you want, as long as you have remaining attempts. You must get at least half of each Challenge's questions correct within a Unit to advance to the Unit Milestone.

WHAT IS A MILESTONE?

Milestones are like tests that gauge mastery of the course concepts taught in the course. Your Course Dashboard shows you the amount of time you have to complete each Milestone. You must get at least half of the questions correct to pass—but remember you need to average 70% across all Challenges and Milestones. Milestones are weighted twice as much as Challenges to calculate your final score.

Each Milestone has a corresponding Practice Milestone that you can use to see if you're ready to try the actual Milestone. You'll find similar questions to the actual Milestone, along with an answer key.

WHAT IS THE FINAL MILESTONE?

Upon successful completion of all Challenges and Milestones, you will be ready to take the Final Milestone. We use keystroke analytics to verify your identity before taking the exam. A score of 50% or higher is needed to pass the Final Milestone and complete your course. The Final Milestone does not count toward your overall score.

Note: the Final Milestone may be proctored. Check your course dashboard for further details.
